New "theory" course

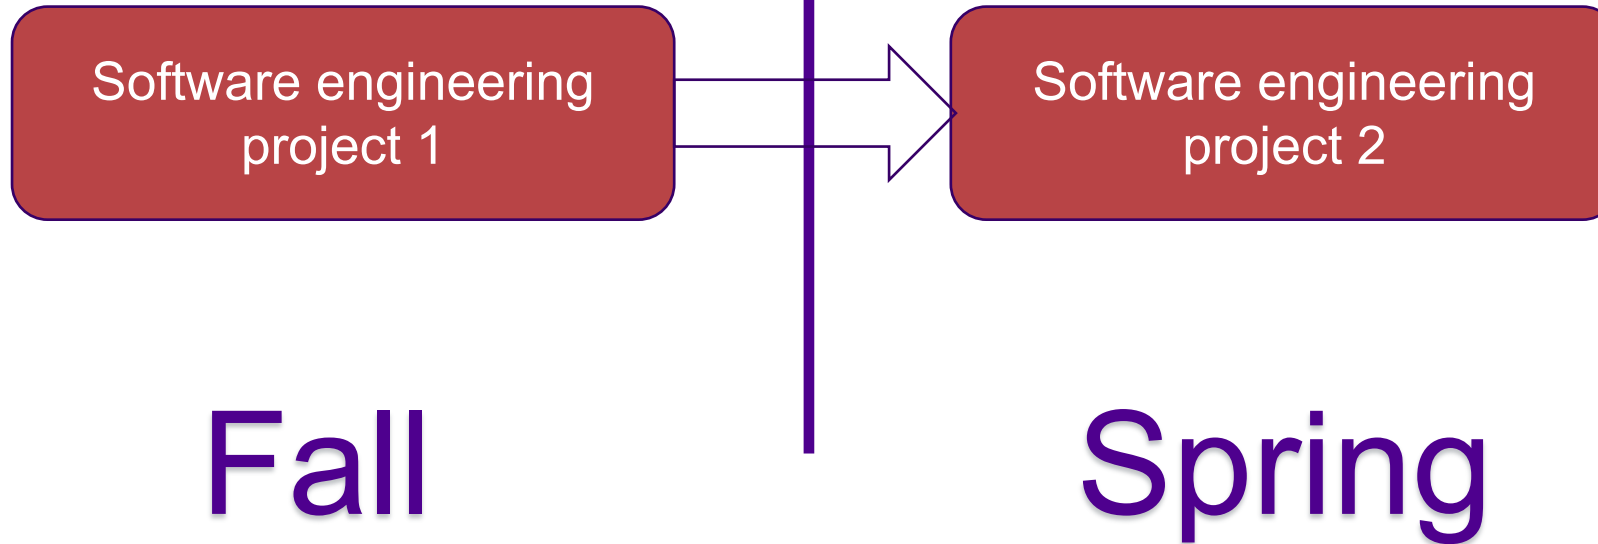

Initial plans

- Keep all “valuables” from previous courses
 - Like the Haikala – Märijärvi/Mikkonen books
- but renew, too.
- Multiple challenges of Product Management
 - Focus on software to be delivered
 - It is not just management of the team, but coordinating with all stakeholders
- Details planned in Fall 2021 and first implementation in Spring 2022
- Now it is good time to send us “do not forget this” messages

Hands-on courses

BSc studies
- member/implementor

MSc studies
- manager/architect/....

Timo Poranen – Tero (Tensu) Ahtee – Harri Keto

Mielenkiintoista seminaaria !

- Mitä meidän opetuksessa pitäisi ottaa huomioon?
- Mitä on se ns. uusi normaali
