UNIVERSITY OF JYVÄSKYLÄ

Tutkimusaktiviteetit tutkimusviestinnän tukena Social impact and CRIS

Research Service Days 2025, Tampere

Timo Taskinen, 21.8.2025

Research activities for social impact and research communication

- Research information system (Converis) contains the functionality to record (research related) activities
- This presentation gives snapshots of the functionality (a template) AND status of the development @JYU
- Any JYU Researcher can login into [Converis](#) as an internal user, then within their profile "Add New Content", select Research activity and "**Add new Research activity**", see e.g. [Aktiviteettien ja palkintojen tyypit ja roolit](#)
- **Main questions:** Which impact related activities are generated and relevant for the researcher and JYU?
 - How the activity information can/could be used
 - How the information will be transferred to other systems (say CRM)?
- Development topics to encourage and enable researchers to record their activities
- Transfer of activities to other databases including research.fi

Add new Research activity

Select the appropriate research activity type. Hover the mouse over items to get additional information on selectable types.

Research activity	Information about the selected research activity
Evaluation or assessment	Use this form to record societal interaction activities related to University of Jyväskylä for which there is no separate form. For example, activities related to media visibility, memberships, or evaluation are recorded on their own forms. Please note that classified information must not be recorded to activity forms, even when stored as private. Transfer of expert statements given on behalf of the university from Vasara system is under planning (est. implementation 2025). However, until the transfer is in use you can record the statement to Converis even if submitted using the Vasara process.
Lectures and presentations	
Organisation of event or conference	
Peer review or editorial work	
Membership or position of trust	
Media visibility and popularisation	
Scientific and societal impact	
Other research or development task	

New Research activity

 Not publicly visible  Not internally visible  In preparation

Key Information *

Use this form to record societal interaction activities related to University of Jyväskylä for which there is no separate form. For example, activities related to media visibility, memberships, or evaluation are recorded on their own forms. Please note that classified information must not be recorded to activity forms, even when stored as private.

Transfer of expert statements given on behalf of the university from Vasara system is under planning (est. implementation 2025). However, until the transfer is in use you can record the statement to Converis even if submitted using the Vasara process.

End year

0/4

Web address

You can enter a web address related to this activity (e.g. a link to presentation, description to position of trust, thesis supervised, or media mention). If possible, use persistent identifiers or otherwise as clear a web address format as possible.

0/1024

JYU experts related to activity *

	Name	Organisation	Follow-up groups	
1 ▾	Taskinen, Timo	University Services YOP (University of J...); Finland		 

All experts

Names of the activity-related persons in the format "**Last name1, First name1; Last name2, First name2**" and in the same order as they are in the original context. Please do not use line breaks. In the case of a collaboration or working group, enter the collaboration name, not the individual authors. If the field is empty, it is filled automatically based on related JYU persons. If needed, you can mark additional information about person's affiliation or role related to activity with parentheses after each name.

0/1024

Add JYU Units, related organisations (must be already listed in Converis) and funders and follow-up groups, profiling areas and keywords

JYU unit(s) *

University Services YOP (University of J...); Finland

Related organisation

The organisation associated with the activity, usually external to the JYU. The meaning of the relationship depends on activity type. For example, for presentations refers to the organisation responsible for the event, for prizes means the organisation that gives the award, and for trusteeships means the organisation within which the position of trust is held.

Funder(s)

If the activity involves external funding, you can indicate the funder(s) here

Additional information about related organisations

0/1024

Follow-up groups

In some units, there is a need to follow activity in more detailed level than the whole unit. For this the Heads of the units have defined needed internal follow-up groups. In addition to these, some university level follow-up groups (e.g. JYU.Wisdom) and multidisciplinary research follow-up groups (e.g. CIBR) are already defined. University level follow-up groups are separately selectable below, without use of the search function. The management of your unit or the coordinator of the multidisciplinary research entity will instruct you to mark the needed follow-up groups. Read more about [follow-up groups](#). Follow-up groups associated with the JYU authors (in the researcher profile) are automatically copied to this field.

JYU.Wisdom

School of Resource Wisdom
(Planetary wellbeing)

☐ Yes ☐ No

JYU.Well

School of wellbeing
(Multifaceted wellbeing)

☐ Yes ☐ No

JYU.Edu

Teacher education research
(teaching, learning, teacher, learning

Converis (CRIS)-tutkimusaktiviteetit – tilanne syksyllä 2025

- Aktiviteettilomakkeet (ns. käyttöönoton 3. vaihe) saatiin tuotantokäyttöön 11/2024
- Talvella 2025 täydennetty lomakkeiden täyttöön liittyvää automaatiota ja korjattu dosentuurien siirtoa Mepcosta
- Keväällä 2025 valmisteltu aiemmin tallennettujen tietojen (osa esityksistä, vertaisarvioinneista ja tutkielmien ohjaustiedoista) tuontia Converikseen
- Aktiviteetteihin liittyvä osio Converis-ohjeesta on vielä keskeneräinen
 - Selkeyttäviä linjauksia sopivan lomakkeen valintaan (esim. julkaisu vs. aktiviteetti – esitys, mediaesiintyminen ja oppimateriaali –lomakkeilla voi olla ”tuotoksellisia” aktiviteetteja) pohdittu OSC:n kirjaajien kanssa
- Gradujen ohjaustietojen siirto Vasarasta Converikseen vielä suunnitteilla
 - Rajapinta samankaltainen kuin Vasara-JYX-siirrossa

Akateemiset pätevyydet	Tuotantokäyttöön 24.9.2024
Palkinto tai huomionosoitus	Tuotantokäyttöön 8.5.2024
Esitelmät ja esitykset	Tuotantokäyttöön 8.5.2024
Vertaisarviointi ja toimituksellinen työ	Tuotantokäyttöön 8.5.2024
Jäsenyydet ja luottamustehtävät	Tuotantokäyttöön 27.8.2024
Tapahtuman tai kokouksen järjestäminen	Tuotantokäyttöön 27.8.2024
Medianäkyvyys ja popularisointi	Tuotantokäyttöön 27.8.2024
Tieteellinen ja yhteiskunnallinen vaikuttavuus	Tuotantokäyttöön 27.11.2024
Arviointi	Tuotantokäyttöön 27.8.2024
Tutkimustyön ohjaaminen, johtaminen ja rahoitus	Tuotantokäyttöön 27.11.2024
Opinnäytteen ohjaus ja tarkastus	Tuotantokäyttöön 27.11.2024
Muu opetusansio	Tuotantokäyttöön 27.11.2024
Muu tutkimus- tai kehitystehtävä	Tuotantokäyttöön 27.8.2024

Research activities – development topics at JYU

- Tutkijan tietojen ja tutkimusaktiviteettien vienti **tutkimustietovarantoon** (=ttv:n profiilityökalu laajaan käyttöön), tekninen suunnittelu käynnissä ja 1. vaiheen toteutus (DW) syksyllä 2025
- Huom. JYU/Converiksen luokitus on kansallista laajempi (erityisesti YVV-ansiot) ja opetusansioiden osalta myös poikkeaa SoleCRIS-yliopistojen ehdotuksesta, pitäisikö yhdenmukaistaa?
(<https://wiki.eduuni.fi/spaces/csctuha/pages/49847377/Tietomallity%C3%B6ryhm%C3%A4>)
- Aktiviteettien hyödyntäminen yliopistotasolla esimerkiksi ”Palkinnot” aktiviteettiluokka raportointeihin tai akkreditointeihin
- Organisaatiotasoiset aktiviteetit verrattuna tutkimusaktiviteetit tutkijan kannalta
 - Vastuullinen tutkijan arviointi eri arviointitilanteissa ja aktiviteettitiedon hyödyntäminen ”kehityskeskusteluissa”
- Uusi luokka: Lausunnot YVV-aktiviteettina (osallisuus ja rooli lausuntojen valmistelussa)
- Löytyykö (kv-)tietokantoja, joita voitaisiin hyödyntää aktiviteettien tuontiin laajassa mitassa?
 - Esim. maailmalla toimittajuuteen tai avoimiin vertaisarviointeihin liittyen?
- HR-tietojen automaattinen muotoilu ja tallennus aktiviteeteiksi (esimerkiksi rooli tutkimushankkeen tai tutkimuslaitoksen johtajana)

Any questions or comments
