

### General Chairs

Jari Nurmi, TAU, Finland  
Elena Simona Lohan, TAU, Finland

### TPC Chairs

Heidi Kuusniemi, U Vaasa, Finland  
Joaquin Torres Sospedra, UJI, Spain

### Publicity Chair

Aleksandr Ometov, TAU, Finland

### Steering Committee

Jari Nurmi, TAU, Finland (chairman)  
Fabio Dovis, Politecnico di Torino, Italy  
Heidi Kuusniemi, U Vaasa, Finland  
Elena Simona Lohan, TAU, Finland  
Jose Lopez-Salcedo, UAB, Spain  
Terry Moore, U Nottingham, UK  
Adriano Moreira, U Minho, Portugal  
Alexander Rügamer, Fraunhofer IIS, Germany  
Stephan Sand, DLR, Germany  
Gonzalo Seco Granados, UAB, Spain  
Joaquin Torres Sospedra, UJI, Spain

### Technical Program Committee

Octavian Andrei, NLS/FGI, Finland  
Vladimir Atanasovski, Ss. Cyril and Methodius University, Macedonia  
Rafael Berkvens, U Antwerp, Belgium  
Zahidul Bhuiyan, NLS/FGI, Finland  
Liang Chen, WHU, China  
Pau Closas, Northeastern University, USA  
Fabio Dovis, Politecnico di Torino, Italy  
Emanuela Falletti, LINKS Foundation, Italy  
Ignacio Fernandez-Hernandez, EC, Belgium  
Jon Gjevestad, NMBU, Norway  
Susanna Kaiser, DLR, Germany  
Martti Kirkko-Jaakkola, NLS/FGI, Finland  
Mike Koivisto, TAU, Finland  
Ilya Kudryavtsev, Samara University, Russia  
Heidi Kuusniemi, U Vaasa, Finland  
Mohamed Laaraiedh, SupCom, Tunisia  
Nicola Linty, NLS/FGI, Finland  
Elena-Simona Lohan, TAU, Finland  
Jose Lopez-Salcedo, UAB, Spain  
Filipe Meneses, Univ. of Minho, Portugal  
Nikolay Mikhaylov, Bosch, Germany  
Adriano Moreira, Univ. of Minho, Portugal  
Maria Nicolau, Univ. of Minho, Portugal  
Fernando Nunes, Instituto de Telecomunicacoes, Portugal  
Jari Nurmi, TAU, Finland  
Aleksandr Ometov, TAU, Finland  
Lorenzo Ortega, TeSA, France  
Taneli Riihonen, TAU, Finland  
Alexander Rügamer, Fraunhofer, Germany  
Stephan Sand, DLR, Germany  
Gonzalo Seco Granados, UAB, Spain  
Benjamin Siebler, DLR, Germany  
Bo Tan, TAU, Finland  
Sarang Thombre, NLS/FGI, Finland  
Joaquin Torres Sospedra, UJI, Spain  
Sabrina Ugazio, Ohio University, USA  
Jesus Ureña, University of Alcalá, Spain  
Klaus Witrisal, TU Graz, Austria

### Call for Scientific and Industrial Papers

**Conference scope:** Reliable navigation and positioning are becoming essential in applications for IoT in industry and logistic applications, in smart city environments, for safety-critical purposes, in public services and consumer products to guarantee transparent, efficient and reliable workflows. A robust localization solution, which will be available continuously is needed regardless outdoor or indoor, and on different platforms. ICL-GNSS addresses the latest research on wireless and satellite-based positioning techniques to provide reliable and accurate position information with low latency. The emphasis is on the design of mass-market navigation receivers and related tools and methodologies, but also many kinds of sensing devices, wireless systems with localization capabilities, and location-aware applications are within the scope of ICL-GNSS.

**Topics of interest** include but are not limited to:

- Antennas and RF front-end for GNSS receivers
- Design, prototyping and testing of positioning devices
- Acquisition, tracking and navigation algorithms
- Detection and mitigation techniques for adverse propagation conditions
- Wireless and sensor-based localization
- GNSS applications for remote sensing, ionospheric sounding and space weather
- Precise timing for GNSS and terrestrial systems
- Authentication, security and/or privacy in navigation systems and location-aware communication
- Radar and radio-based sensing
- Spoofing and jamming countermeasures
- Cooperative and peer-to-peer positioning
- Positioning based on signals-of-opportunity
- Multi-GNSS receivers and emerging navigation satellite systems
- Indoor positioning and localization in densely populated urban areas
- Hybrid NAV/COM positioning
- Cognitive positioning architectures
- Positioning for autonomous systems (robots, planes, land and marine vehicles)
- Device-free localization
- 5G Positioning
- Context awareness

**Paper submission:** Submitted papers must represent original material that is not currently under review in any other conference or journal, and has not been previously published. Papers should be four to six pages long in the specified format (references on page 7 allowed). Papers should be submitted as pdf files prepared according to IEEE two-column A4 format guidelines. We invite you to submit your original full papers on the most recent results and technology trends in the fields of positioning. Accepted and presented papers will be published in electronic conference proceedings.

Traditionally, ICL-GNSS papers will be submitted to IEEE Xplore for inclusion in the database and indexing. A virtual special issue in MDPI Sensors open-access journal will be edited after the conference based on extended top-tier papers from the conference.

Since 2020 we also have another track for industry/work-in-progress papers. The papers accepted on this track will be submitted to the CEUR-WS.org, an open-access repository indexed by Scopus, Ei Compendex and DBLP. For that proceedings, 5-page single-column format will be used. All papers submitted to the conference will undergo a similar peer review based on the full-length paper.

**Contacts and Information** <https://events.tuni.fi/icl-gnss2022> and [iclgns@tuni.fi](mailto:iclgns@tuni.fi)

### Dates and Deadlines

Special session proposals: January 28, 2022

Full paper submission: February 28, 2022

Industry/WiP papers: Abstract March 28, 2022, full paper upload by April 11

Notification of acceptance: April 4, 2022 (industry/WiP April 25)

Camera-ready papers: April 25, 2022 (industry/WiP May 16)
