Poster Presentations-Call for abstracts

Tampere University and the Global Network for Health in All Policies (GNHiAP) are inviting you to showcase a poster presentation during the seminar *Towards Sustainable Societies – Health in All Policies and Social Determinants of Health as Building Blocks* to be held in Finland on September 5 and 6, 2023.

[Click here to submit an abstract.](#)

☐ Are you currently involved in implementation of multisectoral approaches such as Health in All Policies (HiAP) to address the social determinants of health (SDOH)?

☐ Are you currently conducting research related to HiAP implementation and the SDOH?

Submit a poster abstract to have the opportunity to share your work with a range of experts across the SDOH field!

Posters will be displayed during the conference and dedicated time is planned in the program for authors to discuss their work with seminar participants on day 2. This poster session will provide a forum for authors to present their work in an informal and interactive setting. Posters are ideal for presenting latest results or for introducing innovative work. The poster session also provides authors and participants with the ability to connect with each other and engage in discussion about the work.

Poster authors will also have the opportunity to showcase their poster on the GNHiAP website and social media after the event.

Authors will be asked to submit an electronic version of their poster according to the guidelines below, along with material for social media dissemination. The organizing committee will be responsible for printing and installing the poster onsite.

Poster content

Implementation-oriented posters

- Policy, or intervention that demonstrates multisectoral approaches such as HiAP, to address the SDOH including a focus on governance and accountability; leadership; ways of working; and capabilities, resources and financing;
- Policy, or intervention that highlights the role of partners and processes, or mechanisms in place to ensure sustainability;
- Evaluation of policy, or intervention for which there are preliminary data that speak to impact;
- Policy or initiative lessons learned with the potential to advance policy and practice in other settings.

Research-oriented posters
