

Special Call for Abstracts Related to Development or Scientific Projects

Your abstract is an introduction of the development or scientific project in telemedicine, eHealth or digital health, for instance. Novel technological solutions can be presented, too. We are especially interested in international development work.

The conference has sessions in both English and in Finnish. However, submit your abstract in English. **The call for abstracts is from 15 April 2024 until 31 August 2024.** Notifications of acceptance will be sent by **22 October 2024** at the latest.

Please prepare your abstract according to the guidelines and submit it with this form https://www.lyyti.in/ehealth2024_cfp.

The paper poster format is A0 (vertical). Abstracts chosen as posters should be prepared by the presenter. At least one of the authors must register as a conference participant and present the abstract either in an oral session or as a poster in the poster session (**NOTE! Early bird fees are applicable for all accepted abstract authors**). Accepted abstracts will be published in the Conference Book. The best project introduction will be rewarded. The best abstracts are invited to be published as full papers in a special #eHealth2024 issue of Finnish Journal of eHealth and eWelfare.

Guidelines for Abstracts

Use the **Word template** provided on the conference website to write your abstract. It will ensure that your text is not exceeding one page. Too long abstracts will be rejected. For your reference, the main page layout details are here, but it is better to use the template!

Document format:	Word
Size:	A4
Alignment of lines:	even alignment, no hyphernation
Margins	
up	2,54 cm
down	2,54 cm
